

Participation Rules for SOL GAME (SOLG) Lotteries

SOL GAME is more than just a token—it's a chance to change your life. We created this memecoin with a clear purpose: to help people become a little wealthier without requiring large investments and to offer a chance at substantial prizes. Here, everyone, regardless of how much they invest, can participate in the lotteries and potentially transform their lives, not just through the currency's growth but also through exciting cash rewards.

Conditions and Stages of the Lotteries

Lotteries are based on the project's market capitalization growth and daily events in our **Telegram channel**. We believe that anyone can be part of this incredible journey and alter their financial destiny. Lotteries will be launched at various stages of the project's market cap growth. As the market cap increases, so does the prize pool, meaning your chances of winning grow every day.

1. Lottery Stages Based on Market Capitalization:

- **Every \$10 million in market cap** – three winners with a prize pool of:
 - **1st place:** \$50,000
 - **2nd place:** \$30,000
 - **3rd place:** \$20,000
 - **Every \$100 million in market cap** – four winners:
 - **1st place:** \$100,000
 - **2nd place:** \$50,000
 - **3rd place:** \$30,000
 - **4th place:** \$20,000
 - **Global Jackpot at \$1 billion market cap** – the largest prize pool of **\$2,000,000**:
 - **1st place:** \$1,000,000
 - **2nd place:** \$500,000
 - **3rd place:** \$300,000
 - **4th place:** \$200,000
-

2. Participation Rules

- **Buying SOLG Tokens:** To participate, simply purchase **SOLG** tokens with any amount of **SOL**.
- **Important:** A wallet **must not sell SOLG tokens** to remain eligible for participation. If a wallet records a sale transaction, it will automatically be disqualified from the current stage's lottery.

- **Freedom to Trade:** Participants can buy and sell tokens on their wallets freely, but only wallets that haven't sold tokens will be eligible for the lottery.
 - **More Transactions, Higher Chances:** Each purchase increases your chances of winning. We do not limit the amount, but active participation significantly boosts your winning probability.
-

3. Live Broadcast Schedule

Every stage is accompanied by a live broadcast. Once we reach a new market cap milestone (e.g., **\$10 million**), the **Telegram channel** will announce the date and time of the broadcast, during which the cash prizes will be drawn.

4. Winner Verification Process

To ensure full transparency and fairness:

- Winners are announced live.
 - **Verification will be conducted via an online call.** The winner must share their screen and confirm ownership of the winning wallet.
 - **The online session will be recorded** to document the review, ensuring transparency and honesty.
 - **Anyone can join the session** and observe the verification process.
-

5. Transparency and Fairness

- The source code for the transaction collection and random winner selection algorithm will be made publicly available on **GitHub**.
 - Anyone will be able to verify that the lottery is conducted openly and fairly.
-

6. Moral Mission and Risks

SOL GAME was created to help people grow their wealth—not just through token value appreciation but also through exciting lotteries. We're not asking for large investments; everyone has a chance, regardless of their financial situation. **Small steps from each participant can lead to big victories.**

However, we remind you that investing in cryptocurrency carries risks. **Only invest what you can afford to lose.**

7. Have Questions?

If you have any questions, feel free to ask them in our **official Telegram group**. Our team and community will be happy to help you with any details regarding participation.

Conclusion

SOL GAME is a project for those who want to change their lives. We believe that active participation in our community will not only bring financial rewards but also a true sense of achievement. Join us, participate, and move towards victory with **SOL GAME!**
